BCC1313 – ALGORITHMS & COMPLEXITY

Lab 1

1. Write a program that performs the following operations on the array using Java/C++:
   i) Read
   ii) Insertion
   iii) Deletion
   iv) Search

   Instructions:

   - Start with an array of size 10 with some initial values.
   - Implement all operations in the program.
   - Test your program by performing each operation at least once and displaying the results.
