DTL1334 - WEB AND MOBILE SYSTEMS

MARKING RUBRICS – FINAL ASSESSMENT (40%)

Component	Description	Excellent (80–100%)	Good (60–79%)	Satisfactory (40–59%)	Unsatisfactory (0–39%)	Mark
System Functionality (30%)	Completeness of implemented features based on proposal and correct system workflow	All features fully implemented. System runs smoothly with correct workflow and no major errors.	Most features implemented with minor missing parts or minor functional issues.	Some core features implemented but system is incomplete or has noticeable errors.	Very limited or non-functional system not aligned with proposal.	
User Interface (UI/UX) (20%)	Design quality, usability, consistency, and responsiveness	Interface is clean, modern, consistent, and highly user-friendly with smooth navigation.	Interface is clear and usable with minor design inconsistencies.	Basic UI with limited design quality and some usability issues.	Poor layout, inconsistent design, and difficult navigation.	
Technical Implementation (20%)	Code structure, framework usage, and basic system design quality	Well-structured, modular code with proper framework usage and best practices.	Mostly structured code with minor issues and acceptable implementation.	Basic coding structure with limited framework usage or weak practices.	Poor or incomplete code structure and incorrect implementation.	
Data Handling & Integration (10%)	Basic database or storage implementation (CRUD if applicable)	Complete and correct CRUD operations with reliable database/storage integration.	Data handling implemented with minor issues or incomplete CRUD functions.	Basic storage used with limited or partial functionality.	No proper data handling or database integration.	
Report & Documentation (20%)	Clarity, completeness, and quality of final report with screenshots	Report is clear, complete, well-structured with all required sections and high-quality screenshots.	Report is clear with minor missing details or limited explanation.	Report is basic with limited explanation and few screenshots.	Report is incomplete or unclear with missing key sections.
