FACULTY OF ENGINEERING, BUILT ENVIRONMENT, AND INFORMATION TECHNOLOGY (FOEBEIT)

DTL1344 - WEB AND MOBILE SYSTEMS

ASSIGNMENT 1

PROJECT PROPOSAL (20%)

INSTRUCTIONS TO CANDIDATE:

1. This is an **INDIVIDUAL** assessment.
2. This assignment contributes **20%** of the total course mark.
3. Submit your completed assessment via **SPARK** by **30 June 2026**.
4. **Late submission** will follow SEGi University's assessment policy.

WARNING

You are required to submit your work within the bounds of the University Infringement of Assessment Regulations. Plagiarism, paraphrasing and downloading large amounts of information from external sources will not be tolerated and will be dealt with severely.

SEGi University, Kota Damansara takes allegations of plagiarism very seriously. Submissions involving plagiarism will be marked but given zero mark. Plagiarism is the attempt to pass off the work of another as your own. Information taken from the work of others should be acknowledged by reference to obviate the charge of copying.

The work must be entirely your own. You will receive ZERO (0) for work that is not your own. The safety of your assessments is your responsibility. You must not permit another student access to your work.

OBJECTIVE

This assignment aims to develop students' ability to conceptualise and propose a web or mobile application system before the development phase. Students will learn how to identify user problems, define user needs, and propose a structured application concept with meaningful features.

LEARNING OUTCOMES

Upon successful completion of this assessment, students will be able to:

1. Identify user problems and propose appropriate digital solutions.
2. Design a structured project proposal for a web or mobile application.
3. Communicate application ideas clearly and effectively.

TASK DESCRIPTION

You are required to prepare a **Project Proposal** for a new informative web or mobile application. The application can be based on **any topic of interest** such as education, health, environment, tourism, safety, lifestyle, campus services, or any relevant domain. You may also continue improving your idea from the Lab Challenge Task, or propose a completely new application. The proposal should clearly explain the application idea, the problem it solves, the target users, and the key features of the system.

REPORT CONTENT REQUIREMENTS

Your report must include the following sections:

1. **Project Information**

    1.1 Introduction of Proposed Application

    - Overview of the application
    - Purpose of the application
    - Key benefits and value to users

    1.2 Problem Statement & User Needs

    - Description of the problem being solved
    - Current limitations or issues faced by users
    - Identification of target users

1.3 Project Aims

- The application aims
- Expected outcomes of the system

2. Proposed Application

2.1 Target Platform

- Specify platform(s): Android / iOS / Web / Hybrid

2.2 Application Features

- List and describe the main features of the application
- Features must be relevant to the application (e.g., information browsing, search, login, category display, detail pages, etc.)

3. Project Summary

3.1 Conclusion

- Brief summary of the proposed application

3.2 Project Value

- Benefits and advantages of the application
- Impact on users or target audience

ASSESSMENT CRITERIA

Component	Description	Marks
Project Information	Clearly present the application idea, including the problem statement, target users, and project objectives.	40%
Proposed Application	Describe the application features and selected platform Explain the system functionality and user benefits.	40%
Project Summary	Provide a concise conclusion and highlight the usefulness and value of the proposed application.	10%
Submission Quality	Ensure proper formatting, correct file naming, clear structure, and complete submission.	10%
	Total	**100%**

SUBMISSION GUIDELINES

1. Submit your work as a PDF file or embedded images in a Word document.
2. Save your file using the format: **studentName_ID_Proposal.pdf.**
3. If multiple files are submitted, compress them into a single ZIP file.
4. Submit via **SPARK** before the deadline.
